***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to a mechanical locking mechanism.

Group II, claim(s) 8-14 drawn to an injector head with a mechanical locking mechanism.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The general concept is not considered inventive, wherein it was known to provide a mechanical locking mechanism for stopping a movable shaft capable of reciprocating movement, comprising a movable shaft drive means for converting rotary motion of a drive to motion of a prescribed direction in order to supply reciprocation to the movable shaft, safety means for restraining rotation of a rotary shaft of the drive means by a mechanical operation when the moveable shaft moves beyond a predetermined position. For example, see US Patent 3,593,829 to Williams.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Joyce whose telephone number is (571) 272-7107. The examiner can normally be reached on Monday - Thursday 7:30-5:00.
